## The LNS Experience

Lyme Nursery School (LNS) offers a nurturing and stimulating nursery school and after-kindergarten program. We strive to develop a balanced blend of social and academic skill sets in our children. Through self-discovery and positive interactions, LNS children gain self-confidence and form healthy friendships. In order to meet the educational needs of our children, LNS provides an enriching environment that stimulates learning, imagination, and creative expression. We encourage the development of each child's communication and problem-solving skills. In addition to the social and academic aspects of our program LNS places great emphasis on time spent outdoors helping children to explore the environment and world around them.

## What Our Parents Say...

"LNS is such a special place. Of course our child loves the teachers and the activities, and as parents we love the nurturing environment, the flexibility of the schedule, and having a morning program for both three and four year olds."

"Every day our daughter wakes up and is excited about going to LNS. As a parent, I love the school because of the caliber of teachers and their ability to teach all different types of children. I can't imagine a brighter, happier or friendlier place to send my daughter to school."

## The LNS Staff and School

Our dedicated staff brings to our program comprehensive educational backgrounds, diverse work experiences and unparalleled passion.

Our schoolhouse has two classrooms, a large outdoor playground, sledding hill, and tricycle path.

Located just 10 minutes north of Hanover on Route 10, Lyme Nursery School is a great choice for any Upper Valley family.
